PARTS CATALOG

Effective January 1, 2015

Orders Schedule:

All purchase orders need to be received by 12:00p.m. Pacific Standard Time. Parts orders received after 12:00p.m. will be processed the following day.

Minimum Order:

All parts orders must meet the \$100.00 minimum. Custom-made parts will have a minimum \$ 600.00 fee for fabrication which will be enforced unless special arrangements have been made. All orders under \$100.00 net will be assessed a \$30.00 handling fee.

Payment Terms:

Net 30 days. Any customer who is past 45 days will be on pre-pay. Any customer past 75 days will be on no ship.

Lead Time:

Please allow 2-6 weeks from order date to ship date for all Gaylord Industries manufactured items. Allow two weeks for all buy-out parts. If parts are available for shipment earlier than the original scheduled ship date, they will be shipped immediately. Larger quantity orders may increase the lead time.

Accelerated Shipping Time:

We offer accelerated shipping times on certain products, if production schedules allow. Please consult factory at time of order to confirm availability. There may be an additional cost for larger orders or same-day shipping.

F.O.B. Point:

All sales are made F.O.B. factory. When orders are shipped freight prepaid, freight charges will be added as a separate line item to the invoice.

Limited Warranty:

Gaylord Industries products are warranted for one year from the date of shipment against defective workmanship and materials. Component parts not manufactured by Gaylord Industries, Inc., such as electrical switches, solenoid coils, relays, etc., shall be warranted under the terms and conditions of the warranty published by the manufacturer of said component parts. Liability under the foregoing warranties is limited to replacement of Gaylord Industries products, excluding costs of removal, installation, or unauthorized repairs.

Returns:

No merchandise may be returned without first obtaining authorization from the factory. Such authorization shall include the terms on which the credit is to be issued and the disposition of transportation charges. Returned merchandise must be in sellable condition, not more than ninety days old, and will be subject to inspection and acceptance at the factory. Restocking fee is 25%. All electric components will not be allowed for return.

- A photograph of the Quencher Complete Control unit, model B 75328. It features a green printed circuit board (PCB) with various electronic components, including a large integrated circuit and several capacitors. A blue label with technical specifications is attached to the right side of the board. A bundle of multi-colored wires is connected to the top of the unit, and a smaller grey component is visible on the left side.
- B 75328 - QUENCHER COMPLETE CONTROL
- A photograph of the Quencher Power Interruption Device, model C 50453. It is a black, rectangular metal enclosure. The front panel features a control interface with a digital display, several push buttons, and a rotary switch. A ventilation grille is located on the right side of the front panel. Dimension lines indicate the device's size: 7 inches in height and 15 inches in width.
